Article 3. Abatement of Nuisances

Section 14- 11. Summary Abatement of Nuisances.

1. Whenever it is practical to do so, the City Council has the power summarily to abate any such nuisance, after notice to the owner and an opportunity for him to be heard, if this can be done.

Reference: O.S.50, Sec. 16

2. Some nuisances are of such nature as to constitute a grave and immediate danger to the peace, health, safety, morals or welfare of one (1) or more persons of the public

generally, and it is recognized that, in such circumstances, the City Manager (or his representative) may be justified or required to take immediate and proper action summarily to abate such nuisances, or to reduce or suspend the danger, until more deliberate action can be taken toward such abatement.

3. The City Manager, the Fire Chief, the Chief of Police, the City Attorney, the Code Enforcement Officer, any Councilman, any resident of the City of Antlers, Oklahoma, or any other officer subordinate to the City Council, may submit to said City Council, a statement as to the existence of a nuisance as defined by State Law or the Ordinances of the City, and a request or recommendation that it be abated.

4. The City Council shall determine whether or not the alleged nuisance is a nuisance in fact, and before proceeding to have the nuisance abated, the said City Council shall give notice of a hearing on the proposed abatement to the owner of any property concerned and to any other person alleged or deemed responsible for, or to be causing, the nuisance, and an adequate opportunity to be heard, if such notice and opportunity for a hearing can be given. Such notice to the owner and other persons concerned shall be given in writing by mail or by service (Code Enforcement Officer), if their names and addresses are known, if the names and addresses are not known, and the peace, health, safety, morals or welfare of the person, persons or public adversely affected would not be unduly jeopardized by the necessary delay, a notice of the hearing shall be published in a newspaper of general circulation within the City or County.

5. If the City Council finds that a nuisance does in fact exist, it shall direct the owner and/or other persons responsible for, or causing the nuisance, to abate it within a specified time if the peace, health, safety, morals or welfare of the person, persons or public adversely affected would not be unduly jeopardized by the consequent delay. If such peace, health, safety, morals or welfare would be unduly jeopardized by the consequent delay, or if the owner or other persons responsible for or causing the nuisance do not abate it within the specified time; the City Council shall direct the City Manager to abate the nuisance or have it abated, if summary abatement is practical.

6. The City Clerk shall send a statement of the cost of such summary abatement to the owner and/or other persons responsible for, or causing, the nuisance, as may be just under the circumstances, if their names and addresses are known. Section 14- 12. Abatement of Public Health Nuisances.

1. The local or County Health Officer and/or Code Enforcement Officer shall have the authority to order, in writing, the owner or occupant of any private premises in the City to remove from such premises, within a reasonable length of time and at his own expense, any source of filth, cause of sickness, condition conducive to the breeding of insects or rodents that might contribute to the transmission of disease or any other condition

adversely affecting the public health; failure to do so shall constitute an offense. Such order shall be served on the owner or occupant (or his agent) of the premises by the local or County Health Officer, or Code Enforcement Officer, or a policeman. If the premises are unoccupied and the residence of the owner's occupant or agent is unknown or is without the State, the order may be served by posting a copy thereof on the premises or by publication in at least one (1) issue of a newspaper having a general circulation in the City or County.

Section 14- 13. Cleaning; and Mowing of Property.

1. Property owners shall not allow trees to obstruct traffic or pedestrians. Property owners shall be required to maintain property free of grass, weeds or litter to the street.

2. A municipal governing body may cause property within the municipal limits to be cleaned of trash and weeds or grass to be cut or mowed in accordance with the following procedure:

a. At least ten (10) days notice shall be given to the owner of the property by mail at the address shown by the current year's tax rolls in the County Treasurer's office before the governing body holds a hearing or takes action. The notice shall order the property owner to clean the property of trash, or to cut or mow the weeds or grass on the property, as appropriate, and said notice shall further state that unless such work is performed within ten (10) days of the date of the notice the work shall be done by the municipality and a notice of lien shall be filed with the county clerk against the property for the costs due and owing the municipality. At the time of mailing of notice to the property owner, the municipality shall obtain a receipt of mailing from the postal service, which receipt shall indicate the date of mailing and the name and address of the mailer. However, if the property owner cannot be located within ten (10) days from the date of mailing by the municipal governing body, notice may be given by posting a copy of the notice on the property or by publication (as defined in 11 O.S. Section 1-102) one time not less than ten (10) days prior to any hearing or action by the municipality. If a municipal governing body anticipates summary abatement of a nuisance in accordance with the provisions of subsection 2 of this section, the notice, whether by certified mail, posting or publication, shall state: that any accumulations of trash or excessive weed or grass growth on the owner's property occurring within

six (6) months after the removal of trash or cutting or mowing of weeds or grass on the property pursuant to such notice may be summarily abated by the municipal governing body; that the costs of such abatement shall be assessed against the owner; and that a lien may be imposed on the property to secure such payment, all without further prior notice to the property owner;

b. The owner of the property may give his written consent to the municipality authorizing the removal of the trash or the mowing of the weeds or grass. By giving said written consent, the owner waives his right to a hearing by the municipality;

c. A hearing may be held by the municipal governing body to determine whether the accumulation of trash or the growth of weeds or grass has caused the property to become detrimental to the health, benefit, and welfare of the public and the community or a hazard to traffic, or creates a fire hazard to the danger of property;

d. Upon a finding that the condition of the property constitutes a detriment or hazard, and that the property would be benefitted by the removal of such conditions, the agents of the municipality are granted the right of entry on the property for the removal of trash, mowing of weeds or grass, and performance of the necessary duties as a governmental function of the municipality. Immediately following the cleaning or mowing of the property, the municipal clerk shall file a notice of lien with the county clerk describing the property and the work performed by the municipality, and stating that the municipality claims a lien on said property for the cleaning or mowing costs or other means of collection as other debts of the City may be collected;

e. The City Manager or designee shall determine the actual cost of such cleaning and mowing and any other expenses as may be necessary in connection therewith, including the cost of notice and mailing. The municipal clerk shall forward by mail to the property owner specified in paragraph 1 of this subsection a statement of such actual cost and demanding payment. If the cleaning and mowing are done by the municipality, the cost to the property owner for said cleaning and mowing shall not exceed the actual cost of the labor, maintenance, and equipment required. If the cleaning and mowing are done on a private contract basis, the contract shall be awarded to the lowest and best bidder;

f. If payment is not made within thirty (30) days from the date of the mailing of the statement, the municipal clerk shall forward a certified statement of the amount of the cost to the County Treasurer of the county in which the property is located and the same shall be levied on the property and collected by the County Treasurer as other taxes authorized by law. Until fully paid, the cost and the interest thereon shall be the personal obligation of the property owner for and after the date the cost is certified to the County Treasurer. In addition the cost and the interest thereon shall be a lien against the property from the date the cost is certified to the County Treasurer, coequal with the lien of ad valorem taxes and all other taxes and special assessments and prior and superior to all other titles and lien against the property, and the lien shall continue until the cost shall be

fully paid. At the time of collection, the County Treasurer shall collect a fee of Five Dollars (\$5.00) for each parcel of property. Said fee shall be deposited to the credit of the general fund of the county. At any time prior to the collection as provided in this paragraph, the municipality may pursue any civil remedy for collection of the amount owing and interest thereon including an action in person against the property owner and an action to foreclose its lien against the property. A mineral interest, if severed from the surface interest and not owned by the surface owner, shall not be subject to any tax or judgment lien created pursuant to this section. Upon receiving payment, if any, the municipal clerk shall forward to the County Treasurer a notice of such payment and directing discharge of the lien; and

g. The municipality may designate by ordinance an administrative officer or administrative body to carry out the duties of the governing body in subsection 1 of this section. The property owner shall have a right of appeal to the municipal governing body from any order of the administrative officer or administrative body. Such appeal shall be taken by filing written notice of appeal with the municipal clerk within ten (10) days after the administrative order is rendered.

3. If a municipal governing body causes property within the municipal limits to be cleaned of trash and weeds or grass to be cut or mowed in accordance with the procedures provided for in subsection 1 of this section, any subsequent accumulations of trash or excessive weed or grass growth on the property occurring within a six month period may be declared to be a nuisance and may be summarily abated without further prior notice to the property Owner. At the time of each such summary abatement the municipality shall notify the property owner of the abatement and the costs thereof. The notice shall state that the property owner may request a hearing within ten (10) days after the date of mailing the notice. The notice and hearing shall be as provided for in subsection 1 of this section. Unless otherwise determined at the hearing the cost of such abatement shall be determined and collected as provided for in paragraphs e and g of subsection 1 of this section. Provided, however, that this subsection shall not apply if the records of the county clerk show that the property was transferred after notice was given pursuant to subsection 1 of this section.

4. The municipal governing body may enact ordinances to prohibit owners of property or persons otherwise in possession or control located within the municipal limits from allowing trash to accumulate, or weeds to grow or stand upon the premises and may impose penalties for violation of said ordinances.

5. As used in this section:

a. "Weed" includes but is not limited to poison ivy, poison oak, or poison sumac and all vegetation at any state of maturity which:

(1) exceeds ten (10) inches in height, except healthy trees, shrubs, or produce for human consumption grown in a tended and cultivated garden unless such trees and shrubbery by their density or location constitute a

detriment to the health, benefit and welfare of the public and community or a hazard to traffic or create a fire hazard to the property or otherwise interfere with the mowing of said weeds;

(2) Regardless of height, harbors, conceals, or invites deposits or accumulation of refuse or trash;

(3) Harbors rodents or vermin;

(4) Gives off unpleasant or noxious odors;

(5) Constitutes a fire or traffic hazard; or

Reference: 11 O.S. Supp. 1989, Section 22 111.

Section 14- 14. Removal of Unsafe Structures.

1. The City Council may cause dilapidated buildings within the municipal limits to be torn down and removed in accordance with the provisions of this section.

2. At least ten (10) days' notice that a building is to be torn down or removed shall be given to the owner of the property before the governing body holds a hearing. A copy of the notice shall be posted on the property to be affected. In addition, a copy of said notice shall be sent by mail to the property owner at the address shown by the current year's tax rolls in the office of the county treasurer. Written notice shall also be mailed to any mortgage holder as shown by the records in the office of the county clerk to the last-known address of the mortgagee. At the time of mailing of notice to any property owner or mortgage holder, the municipality shall obtain a receipt of mailing from the postal service, which receipt shall indicate the date of mailing and the name and address of mailer. However, if neither the property owner nor the mortgage holder can be located, notice may be given by posting a copy of the notice on the property, or by publication (as defined in 11 O.S. 1981, Section 1-102). Such notice may be published once not less

than ten (10) days prior to any hearing or action by the municipality pursuant to the provisions of this section.

3. A hearing may be held by the governing body to determine if the property is dilapidated and has become detrimental to the health, safety, or welfare of the general public and the community, or if said property creates a fire hazard which is dangerous to other property.

4. Pursuant to a finding that the condition of the property constitutes a detriment or a hazard and that the property would be benefitted by the removal of such conditions, the governing body may cause the dilapidated building to be torn down and removed. The governing body shall fix reasonable dates for the commencement and completion of the work. The municipal clerk shall immediately file a notice of dilapidation and lien with the county clerk describing the property, the findings of the municipality at the hearing, and stating that the municipality claims a lien on said property for the destruction and removal costs and that such costs are the personal obligation of the property owner from and after the date of filing of said notice. The agents of the municipality are granted the right of entry on the property for the performance of the necessary duties as a governmental function of the municipality if the work is not performed by the property owner within dates fixed by the governing body.

5. The governing body shall determine the actual cost of the dismantling and removal of dilapidated buildings and any other expenses that may be necessary in conjunction with the dismantling and removal of the buildings, including the cost of notice and mailing. The municipal clerk shall forward a statement of the actual cost attributable to the dismantling and removal of the buildings and a demand for payment of such Costs, by mail to the property owner. In addition, a copy of said statement shall be mailed to any mortgage holder at the address provided for in paragraph 2 of this section. At the time of mailing of the statement of costs to any property owner or mortgage holder, the municipality shall obtain a receipt of mailing from the postal service, which receipt shall indicate the date of mailing and the name and address of the mailer. If a municipality dismantles or removes any dilapidated buildings, the cost to the property owner shall not exceed the actual cost of the labor, maintenance, and equipment required for the dismantling and removal of the dilapidated buildings. If dismantling and removal of the dilapidated buildings is done on a private contract basis, the contract shall be awarded to the lowest and best bidder.

6. When payment is made to the municipality for costs incurred the municipal clerk shall file a release of lien, but if payment attributable to the actual cost of the dismantling and removal of the buildings is not made within thirty (30) days from the date of the mailing of the statement to the owner of such property, the municipal clerk shall forward a certified statement of the amount of the cost to the county treasurer of the county in which the property is located. Said costs shall be levied on the property and collected by the county treasurer as are other taxes authorized by law. Until finally paid, the costs and the interest thereon shall be the personal obligation of the property owner from and after the date of the notice of dilapidation and lien is filed with the county clerk. In addition the cost and the interest thereon shall be a lien against the property from the date the notice of the lien is filed with the county clerk. Said lien shall be coequal with the lien of ad valorem taxes

and all other taxes and special assessments and shall be prior and superior to all other titles and liens against the property. The lien shall continue until the cost is fully paid. At the time of collection, the county treasurer shall collect a fee of Five Dollars (\$5.00) for each parcel of property. Said fee shall be deposited to the credit of the general fund of the county. At any time prior to collection as provided for in this paragraph, the municipality may pursue any civil remedy for collection of the amount owing and interest thereon including an action in person and against the property owner and an action in rem to foreclose its lien against the property. A mineral interest, if severed from the surface interest and not owned by the surface owner, shall not be subject to any tax or judgment lien created pursuant to this section. Upon receiving payment, the municipal clerk shall forward to the county treasurer a notice of such payment and shall direct discharge of the lien.

7. The municipality shall designate the Code Enforcement Officer to carry out the duties of the governing body specified in this section. The property owner shall have the right of appeal to the municipal governing body from any order of the administrative officer or administrative body. "Owner" means the owner of record as shown by the most current tax rolls of the county treasurer.

9. Nothing in the provisions of this section shall prevent the municipality from abating a dilapidated building as a nuisance or otherwise exercising its police power to protect the health, safety, or welfare of the general public.

(C) The Planning Commission shall hold one (1) or more public hearings thereon. The property owners of record within the bounding lines defined in (A) above will be informed in writing by the planning commission of the time and date of the public hearing.

Where no existing plats control the blocks in residential districts shall normally not exceed one thousand three hundred twenty (1,320) feet in length, except that in outlying subdivisions a greater length may be permitted where topography or other conditions justify a departure from this maximum. In blocks longer than eight hundred (800) feet pedestrian ways and/or easements shall be

provided and shall have a minimum width of twenty (20) feet. Blocks for business use should normally not exceed six hundred (600) feet in length.

Section. 26-5. Streets and Alleys.

1. Arrangement of major streets in the subdivision shall conform as nearly as possible to the master plan adopted by the City planning commission, and provision shall be made for the extension of major and secondary thoroughfares. Except for courts, places, and cul de sacs, streets normally shall connect with streets already dedicated in adjoining or adjacent subdivisions, or provide for future connections to adjoining unsubdivided tracts, or shall be a reasonable projection of streets in the nearest subdivided tracts.

2. Minor streets should be so planned as to discourage their use by non-local traffic. Dead end streets are prohibited but places, courts, or cul de sacs will be permitted where topography or other conditions justify their use. Cul de sacs shall normally not be longer than five hundred (500) feet including a turnaround which shall be provided at the closed end, with an outside curb radius of at least forty (40) feet and right of way radius of not less than fifty (50) feet.

3. Where the plat to be submitted includes only part of the tract owned or intended for development by the subdivider, a tentative plan of a proposed future street system for the subdivided portion shall be prepared and submitted by the subdivider.

4. When a tract is subdivided into larger than normal building lots or parcels, such lots or parcels shall be so arranged as to permit the logical location and opening of future streets and appropriate resubdivisions, with provision for adequate utility connections for such resubdivision.

5. Under normal conditions, streets shall be laid out so as to intersect as nearly as possible at right angles, except where topography or other conditions justify variations. The minimum angle of intersection of the streets generally shall be sixty (60) degrees.

6. Wherever the proposed subdivision contains or is adjacent to a railroad right of way or the right of way of a limited access major thoroughfare, provision should be made for a marginal access street approximately parallel and adjacent to the boundary of such right of way, or for a street at a distance suitable for the appropriate use of land between such street and the right of way. Such distance shall be determined with the consideration of the minimum distances required for approach connections to future grade separations, or for lot depths.

7. Alleys shall be provided in commercial and industrial districts, except that this requirement may be waived where other definite and assured provision is made for service access such as off street loading, unloading and parking consistent with and adequate for the uses proposed. Except where justified by special conditions, such as the continuation of an existing alley in the same block, alleys will be discouraged in residential districts. Alleys, where provided, shall not be less than twenty (20) feet wide. Intersecting

alleys shall have corner cutoffs of at least twenty (20) feet on a side, dead end alleys shall be avoided wherever possible, but if unavoidable, such dead end alleys may be approved if adequate turnaround facilities are provided at the closed end.

8. Dedication of half streets will not be approved, except where it is essential to the reasonable development of the subdivision and in conformity with the other requirements of these regulations. Where it is found that it will be practical to require the dedication of the other half when the adjoining property is subdivided or where it becomes necessary to acquire the remaining half by condemnation so it may be improved in the public interest.

9. For all public ways hereafter dedicated and accepted, the minimum right of way widths for streets, alleys, or pedestrian ways included in any subdivision shall not be less than the minimum.

Dimensions for Each Classification as Follows:

Major Thoroughfares All 80 feet

Collector Streets- Industrial 60 feet Residential 40 feet

Minor Streets Residential 40 feet Frontage Streets 30 feet

Alleys All 20 feet

Where existing or anticipated traffic on primary and secondary thoroughfares warrant greater widths of right of way, these shall be required.

Drainage Easement

A drainage easement, in addition to the provided right of way width, may be required where streets parallel streams of drainage area. The width of drainage easements shall be determined by the town engineer, said town engineer shall notify the developer and the planning commission in writing of his determination.

10. Minimum pavement widths for all streets, measured from the face of the curb, and for all alleys and walks included in any subdivision shall not be less than the minimum dimension for each classification as follows:

Major Thoroughfares All 48 feet (4 lanes 12')

Collector Streets Industrial 44 feet (4 lanes 11') Residential 38 feet

Minor Streets

Residential 26 feet Frontage 32 feet

11. Street Grades The grades in all streets, alleys, and pedestrian ways or pedestrian ways included in any subdivision shall not be greater than the maximum grades for each classification as follows, except where topographical conditions unquestionably justify a departure from this maximum:

Major Thoroughfares All 5%

Collector Streets Industrial 5% Residential 7%

Minor Streets

All 10%

12. Street Alignment- The horizontal and vertical alignment on all streets, except in unusual cases, shall be as follows:

Major Thoroughfare -All 500 feet
Collector Streets- Industrial 300 feet Residential 250 feet
Minor Streets- All 140 feet

There shall be a tangent between all reversed curves of a length in relation to the radii of the curves so as to provide for a smooth flow of traffic.

Vertical--All changes in street grade shall be connected by vertical curves of such length as to provide for the minimum sight distances required. The minimum sight distances required are as follows:

Major Thoroughfares All 600 feet
Collector Streets Commercial 500 feet Residential 300 feet
Minor Streets
All 200 feet

13. Curb Radii--Where two minor streets intersect at approximately right angles, so that the smallest angle of intersection is not less than eighty (80) degrees, or where two or more secondary or major thoroughfares meet, cross, or otherwise intersect in any combination the curb radii at such intersections shall be subject to the approval of the town.

Section. 26-6. Lots.

(a) The minimum width of a lot for residential development shall be fifty (50) feet at the front building line for lots whose side lines are radial to curbed streets and the depth of the lot shall be not less than one hundred (100) feet, except in unusual situations. In no case shall a lot in a residential district contain less than seven thousand (7,000) square feet. Excessive depth in relation to width shall be avoided.

(b) In subdivisions where septic tanks or other individual sewage disposal devices are to be installed, the size of all lots included in such subdivision shall be subject to the approval Oklahoma D.E.Q.

(c) Corner lots for residential use shall have additional width to permit appropriate building setback from both streets.

(d) Side lines of lots shall be approximately at right angles to street lines or radial to curved street lines.

(e) Double frontage lots shall be avoided.

(f) Every lot shall abut on a street other than an alley.

(g) Setback or building lines shall be shown on all lots intended for residential use and shall not be less than the setback required by the zoning ordinance. On those lots which

are intended for business use, the setback shall be at least that required by the zoning ordinance, unless special plans for the location of buildings and parking areas are approved by the City Council at the time of approval of the plat.

Section. 26-7. Easements.

(a) To facilitate underground installation, an easement for utilities, at least ten (10) feet wide, shall be provided along each side of a side line of lots and/or the rear line of lots where necessary to form a continuous right of way, at least twenty (20) feet in width. If necessary for the extension of main water or sewer lines or similar utilities, easements of greater width may be required along lot lines or across lots.

(b) Utility easements shall connect with easements established in adjoining properties. These easements, when approved, shall not thereafter be changed without the approval of the City Council by ordinance upon the recommendation of the Planning Commission.

(c) Additional easements for pole guys should be provided at the outside of turns. Where possible, lot lines shall be arranged to bisect the exterior angle so that pole guys will fall along the side lot lines.

(d) Drainage easements for storm sewers may be required. Easements for open channel drainage may be required where the cost for the installation of storm sewers is considered to be prohibitive. These easements may be along the side lot lines, but usually the design should be such that the drainage will be carried along the rear of the lots, if open channel drainage is to be carried in the street right of way, additional right of way width shall be provided. When the drainage is carried down the rear lot lines, the easement shall be of adequate width for workmen (with trucks if need be) to enter the easement and keep it cleaned out. The size and location of such easements for open channel drainage shall be determined by the City.

Section. 26-8. Dedication for Public Sites and Open Spaces.

In subdividing land or resubdividing an existing plat, due consideration must be given by the subdivider to the dedication or reservation of suitable sites for schools, parks, playgrounds, or other public recreational areas or open spaces. Any areas so dedicated or reserved shall conform as nearly as possible to the recommendations of the planning commission in its master plan. All areas to be reserved for or dedicated to public use shall be indicated on the preliminary plat in order that it may be determined when and in what manner such areas will be dedicated to or acquired by the appropriate area.

Section. 26-9. Improvements.

All improvements when constructed by the owner or developer shall comply with the rules and specifications of the City.

Section. 26-10. Permanent Markers and Monuments.

Permanent markers shall be placed at each corner of every block or portion of a block, points of curvature and points of tangency on street lines, and at each angle point on the boundary of the subdivision. A permanent marker shall be deemed to a steel rod or pipe, one half (1/2) inch or larger in diameter extending at least three (3) feet below the finished grade. In situations where conditions prohibit the placing of markers in the locations prescribed above, offset markers will be permitted. The exact location of all markers shall be shown on the final plat, together with accurate interior angles, bearings and distances.

Article 3. Plats Submission and Approval.
